DETAILED ACTION

Election/Restrictions

1. This communication is responsive to Amendment dated 1/26/2005.
2. Claims 1-22 are presented for examination.
3. Restriction to one of the following inventions is required under 35 U.S.C 121:
 - I. Claims 1-10 and 18-22, drawn to a transfective cholesteric liquid crystal display device, classified in class 349, subclass 114.
 - II. Claims 11-17, drawn to a method of forming a full color transfective cholesteric liquid crystal display, classified in class 349, subclass 187.

The invention are distinct, each from the other because of the following reasons:

Inventions II and I are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case, the method/process of forming a full color transfective liquid crystal display could produce different devices/product such as:

a) high birefringence liquid crystal material selected is not cholesteric liquid crystal, (i.e. nematic liquid crystal composition comprising the compound of the chemical formula 1 or 2, [see par. 0028, 0015, and 0020 discloses by Ban et al US 2005/0062018]);

and/or

Art Unit: 2871

b). color filters used could be formed on the lower substrate.

Because these inventions are distinct for the reasons given above, and the search required for Invention I and II differently, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
